Simple NAS

Network Attached Storage

- Add storage over your network
- Use as an FTP server
- Share music, photos and data
- Multiple computers can access the hard drive simultaneously
- Automatic network configuration allows for easy setup
- Complete backup software utility included

Description

The TRITTON Simple NAS™ is a cost effective network attached storage solution designed for the home or small office user. Connect the Simple NAS directly into your network through the CAT5 port located on the back of the unit. Share music, photos, movies and your data with everyone on the network simultaneously whether you are reading or writing data. Use as an FTP server, media storage server and backup critical data. The included backup software allows for scheduling unattended backup tasks, self executable backups, encrypted backups, compressed file backups and much more. Setup is simple and only takes few minutes to be up and running. Administering the Simple NAS is done through a web based interface by logging onto the unit via your web browser.

Specifications

- Security: Folder level password protection
- Supported Hard Disk: 3.5" Ultra ATA
- Web Based Management: Yes
- Firmware Upgradeable: Yes
- Ports: 1 x 10/100 RJ-45 LAN Port
- Dimensions: 7.50(D) x 4.75(H) x 1.75(W)
- Housing: Aluminum
- Cooling: Ultra quiet fan
- Power Connection: External AC Adapter
- AC Input Voltage: 100-240 VAC
- AC Input Frequency: 50-60Hz AC
- AC Output Voltage: 12 VDC 2A
- Package weight: 2.80lbs (no HD)
- Unit Weight: .8lbs (no HD)
- Network Protocols: CIFS/SMB
